SUMMARY

Full-stack web developer, specializing in modern React/Next.js front-end development and emerging TypeScript + NestJS backend technologies. Skilled in translating responsive UI mockups into production-ready interfaces utilizing Next.js, TailwindCSS, TypeScript, Prisma + PostgreSQL, and Docker. Recognized for strong self-directed learning and clean, maintainable code.

SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, HTML5, CSS

Front-End: React, Next.js, TailwindCSS, shadcn/ui, React Hook Form, TanStack Query

Back-End & APIs: NestJS, FastAPI, Prisma ORM, RESTful API design

Databases & Caching: PostgreSQL, MySQL, Redis

Infrastructure & Tooling: Docker, Git, Gitflow, Linux

WORK EXPERIENCE

Rápido Infoshop

Full-stack web developer

Sep 2024 - Present

Arapiraca, Brazil

- Led the end-to-end implementation of polished, mobile-first UI/UX using Next.js, TypeScript, TailwindCSS, and shadcn/ui, translating high-fidelity Figma designs into modular React components with real product fidelity
- Supported backend integration tasks using FastAPI (Python), exposing RESTful endpoints and orchestrating message flows behind chatbot interfaces

PROJECTS

Rápido Infoshop Website

Lead Front-end Developer

- Developed the production frontend in Next.js (TypeScript), transforming high-fidelity Figma designs into a modular React UI library for a retail portal.
- Styled exclusively with TailwindCSS and shadcn/ui components for easy customization and accessibility.
- Built a typed form system using React Hook Form together with Zod for validation to handle contact and FAQ workflows.

Brejo dos Bois Brand Website

Lead Front-end Developer

- Rebuilt the brand's web presence with Next.js + TypeScript, creating a mobile-first, accessible UI aligned with their visual identity.
- Structured UI with shadcn/ui and Tailwind for quick customization and accessibility compliance.

BookMuse (Personal)

Solo FullStack Developer

- Built a full-stack social reading platform with modular React UI components for feed discovery, reviews, and follow workflows; styled using Tailwind CSS and shadcn/ui.
- Designed and deployed a NestJS/Prisma back end with PostgreSQL, JWT authentication, and REST APIs consumed by the front-end.
- Delivered production deployment via DockerCompose, serving static assets through Cloudflare/R2 and optimizing for low-latency, scalable hosting.

EDUCATION

Federal University of Alagoas

Bachelor of Computer Science

Aug 2022 - Jun 2026

LANGUAGES

- **Portuguese (Brazilian):** Native.
- **English - B1 (Intermediate):** Can understand texts, write emails, and engage in conversations.
